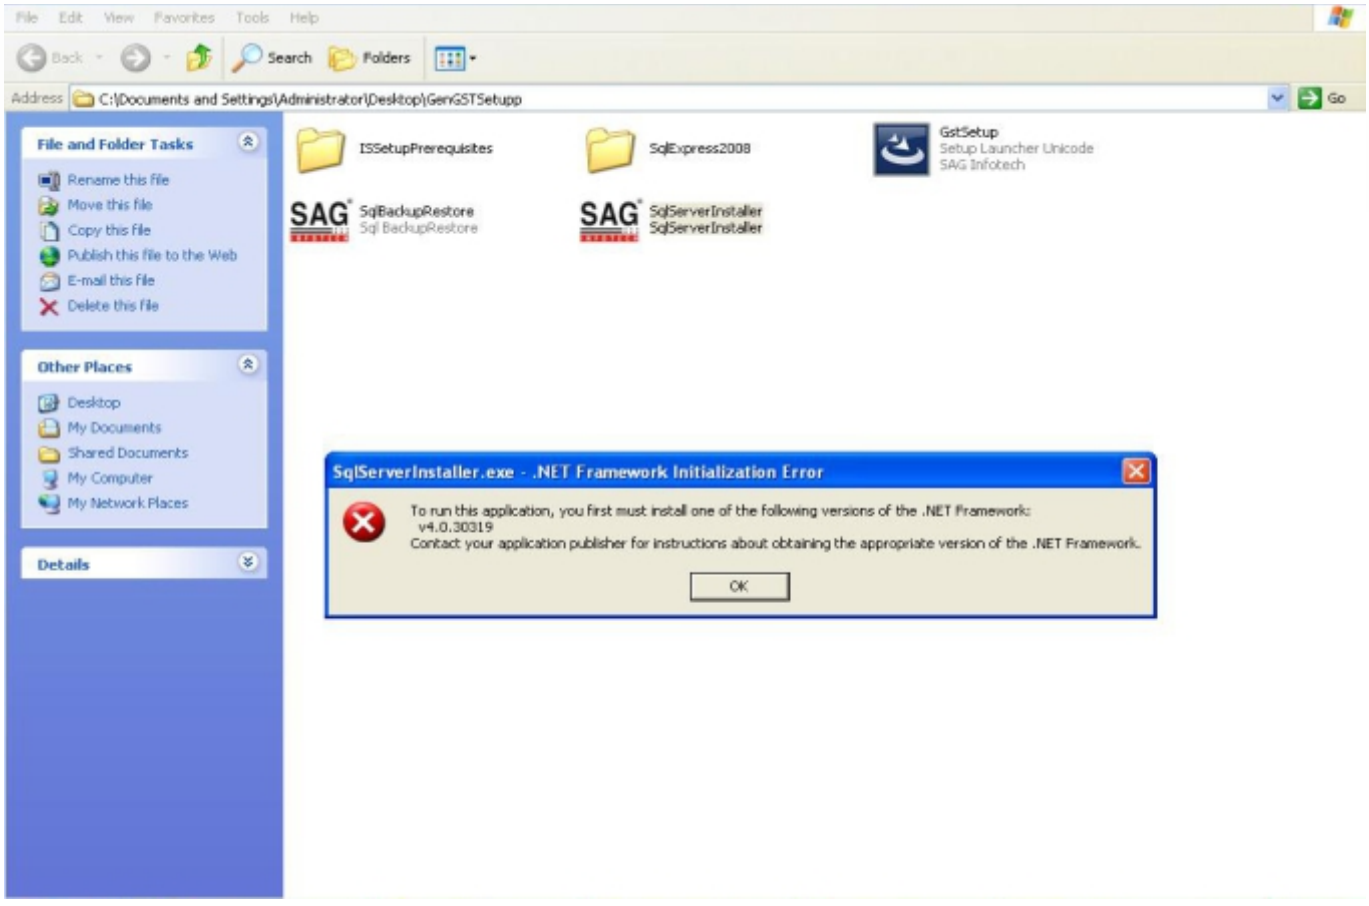
GEN GST DESKTOP SOFTWARE INSTALLATION HELP GUIDE

Fill the form on SAG Infotech and get the download setup link directly on your e-mail ID (Approx 314 MB)

If you have Windows XP, Please run NetFx20SP2_x86.exe before running GenGST Setup

The link will be delivered on your e-mail id, click on the link and extract the files from the Zip file. A separate folder will be created with the name of **'GenGSTSetup'** folder.

Please install word for billing printing.



If you face this error please first install GenGST setup and than install the SqlServerInstaller.exe
