COMPLAW

Complaw is one of the leading software in the field of integrated softwares for the solution of ROC e-Forms, XBRL, Resolutions, Minutes, Registers & various MIS reports.

Our exquisite product just takes scanty time for the "XBRL" E-filling

Following are the effortless & candid 4 steps by following which we deliver the solution for ROC –filling:-

- **Step 1:**

  Feeding the whole financial data with all relevant notes and disclosures in Excel sheet provided by us, to download the latest taxonomy XBRL sheet

- **Step 2:**

  Converting the XBRL Software sheet into XML file format by our Product "Comp Law" Software tool with professional(s) assistance.

- **Step 3:**

  Validating the data through MCA tool.

- **Step 4:**

  An Instance document containing Balance Sheet and Profit and Loss Account will be generated and ready for e-filling.
