

## Now Reach your customers with easy SMS Service.....

### Bulk SMS facility

**SAG Infotech** comes up with a new feature to stay connected with the customers easily. We have added an extra feature to our software service named '**BULK SMS**' using which user will be able to send bulk messages to their customers.

With this new feature user will be able to -

- Send Message to all clients on a single click
- Send message through predefined templates
- Create your own templates/message formats
- Delivery Report for all sent Messages
- Check SMS Balance
- Save Message for later Reports
- Send Messages to DND Numbers as well\*

\* Make sure your message is a transactional service message and not a promotional message. Use for your clients, Friends and relatives only.

(Transactional sms includes a message that is not related to promote or advertise your business.)

The SMS will be provided as per the following rates -
