

Exclusive Server Terms & Condition for SAG Online Users of Desktop Products

Licence Terms:-

1. Cloud Server to run desktop Software i.e. Genius, Payroll, Comp Law with XBRL, ROC and XBRL for Existing and New Clients having the latest year subscription. If a client wants to run an existing software license on remote then the client has to pay SAG ONLINE server charges and the new client has to pay both software Installation charges + SAG ONLINE server charges. A client can also install other Licenced software like Accounting etc. If a client has no licence then he/she will be liable for consequences or any liability. No illegal activity, installations will be permitted on this server.
2. SAG ONLINE server charges will be user and month-wise not date wise. If the client subscribed during a month then he also has to pay the full monthly amount, and not on a per-day basis.
3. A client can make multi-users for his/her staff considering the provided resources of an online server.
4. If the client does not renew for SAG ONLINE server services, then SAG will not be liable to save or provide backup. Therefore, if any client doesn't want to use the facility then it is suggested to first take the backup and copy it at their own system before the date of expiry of the subscription. If payment for next month is not received up to the last date of the validity period and the invoice not issued then from the next day facility will not be available.
5. If the client does not renew for SAG ONLINE server services and in case, purchases SAG ONLINE services again after some time then they will get a fresh account.
6. Client having Unlimited LAN (Filed Declaration Form) are not allowed to use multiple User Login in SAG Online server only one User will allowed. In case of paid LAN clients are allowed to use multi user login in SAG Online server to the extent they have subscribed No. of LAN. For example if a user purchased 2 LAN then he/she is allowed for 2 LAN and one server so the Client has allowed for 3 User Login on SAG Online server.

Procedure:-

7. To take remote access, Company will provide a utility. When client click on utility it ask for User Name & Password.

8. In an exclusive server, clients will not get full HDD Space, RAM and CPU because some space is also used by OS and installed software.
9. The company will offer a wholly configured system at the time of subscription to the facility, however, for any further modification of the server by the client, the charges will be applicable as per each service.
